

At GGR, we do not claim to be the lowest price in the market. However, we do strongly claim that we provide the best quality and value for your investment. To illustrate the value in what you receive with your GGR order, we have included a cost comparison below for the same order specs, with pricing from several different pressing plants. Under the price for each pressing plant, you will see a list of items that are included. The pricing is based upon the online published prices on these companies' websites as of May 1, 2018.

\*Asterisk denotes companies that do not sell print - you will need to buy jackets from a third party and supply. We based the jacket price off the GGR published price of \$575 for single pocket full color jackets, as if you were buying jackets from GGR and supplying them to the third party company.

\*\*All other companies listed above besides GGR bill for overrun copies. This means you may pay more for your final order than the price quoted above -- up to 10% extra of the pressing costs (Example: you order 500 records, you may be billed for 550). GGR does not charge extra for overrun copies.

**GGR Exclusive items included ONLY with a GGR pressing:**
